A call for Master/Ph.D. candidates at LCUD

The LCUD has funded-positions available for Master's candidates. The Lab also hosts visiting scholars and PhD students. Researchers are expected to be physically based in the Lab and conduct research that aligns with one of the Lab's ongoing projects. Lab researchers come from various disciplines, including architecture, urban planning, engineering, economics, social science, and others. The LCUD emphasizes the importance of the connections between the physical and social dimension of urban design and planning, and of identifying meaningful analytical tools, experimental design instruments, and pilot strategies for policy/decision makers. In all Lab projects, issues of design, sociology, functionality and form are paramount.

Applicants should have interests and expertise in one or several of the following areas of research: quantitative and qualitative analysis, city design and development, data visualization.

General Guidelines and Procedures for all Applicants

Submit an application by email to hatuka@post.tau.ac.il by June 30, 2015. Indicate your status and desired position.

Please attach the following material:

- Cover letter, stating research background and desired position
- CV or resume
- Links or copies of relevant publications and/or a portfolio
- *Letters of reference are optional*

Degree-seeking Applicants

Applicants seeking a Master's degree through LCUD must follow the general TAU guidelines and admissions deadlines. Additionally, you may also submit an application to LCUD, following the above general guidelines. Please state in your e-mail whether you have already submitted your formal Graduate Application for Admission to TAU.
